

An environment passion rewarded

PADBURY woman Sandra Laidley's passion for the environment has helped her to receive a Certificate in Active Volunteering.

The certificate is a national formal qualification that rewards volunteers for the contribution

they make and acknowledges the skills they have developed during that time.

In partnership with Toyota, Conservation Volunteers Australia is the first volunteer involving organisation in Aus-

tralia to offer the certificate to volunteers.

Ms Laidley said she had received the certificate after completing 30 hours of volunteering at the Cape Wetlands Centre in Capel.
